

Magdeveloper Live-Sync

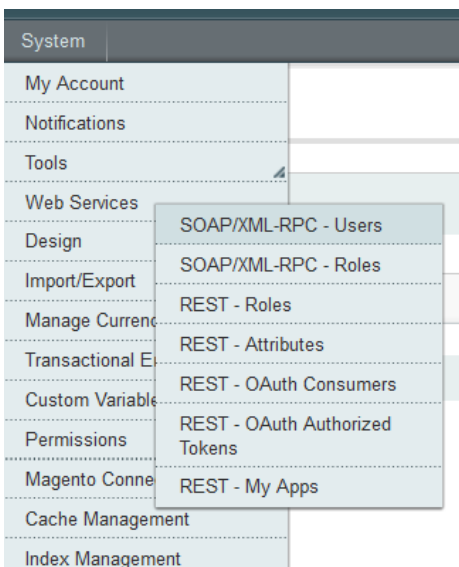

Quick start Guide

In order to use Magdeveloper Live-Sync you first have to setup a Web Service Role and assign a Web Service User to it.

1. Go to System> Web Services SOAP/XML -RPC - Roles
Click on Add New Role, fill in a Role name e.g. 'Live-Sync', set Role Resources preferably to "All".

Now create a Web Service user:

- Go to System > Web Services SOAP/XML-RPC – Users
Click on Add New User, fill in User Name, First + Last Name and fill in a API key e.g. ‘myapikey’.

<input type="radio"/>	webrole

You're done! Now go and fill in your API user and API Key in your **Dashboard**.
(In this example I would fill in 'Paul' as API user and 'myapikey' as the API Key.)
